# **SAFETY DATA SHEET**

Product Name: WHITE SPIRITS

Date of Issue: MAY 2017 Page 2 of Total 7

P321	Specific treatment (see First Aid Measures on Safety Data Sheet).		
P370 + P378	In case of fire: use foam, water spray or fog, dry chemical powder or carbon dioxide for		
	extinction. Do not use water in a jet.		
Precautionary statement(s): Store	age		
P403 + P235 + P233	Store in a well-ventilated place. Keep cool. Keep container tightly closed.		
P405	Store locked up.		
Precautionary statement(s): Disp	Precautionary statement(s): Disposal		
P501	Dispose of contents/ container in accordance with local regulations.		
Note			
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product in its		
	concentrated form, as supplied. When diluted to 1:10 or greater they no longer apply.		
	However, good hygiene and housekeeping practices should be adhered to.		

Ingredients:	CAS Number:	Proportion:
Low Aromatic White Spirit	64742-82-1	>60% w/w
With components:		
1,2,4-Trimethylbenzene	95-63-6	< 10% w/w
1,3,5-Trimethylbenzene	108-67-8	< 10% w/w
Naphthalene	91-20-3	< 10% w/w
Xylene, Mixed Isomers	1330-20-7	< 10% w/w
Note – contains < 0.1% benzene		

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011. Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

SECTION 4 – FIRST AID M	EASURES
Inhalation	Keep victim calm and remove to fresh air if safe to do so. If rapid recovery does not occur,
	transport to nearest medical facility for additional treatment.
Skin contact	Immediately wash contaminated skin with plenty of soap and water. Remove contaminated
	clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or
	redness persists.
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove
	contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a
	doctor, or for at least 15 minutes. If symptoms persist, seek medical attention.
Ingestion	If swallowed, do NOT induce vomiting. Transport to nearest medical facility for additional
	treatment. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.
Advice to Doctor	Treat symptomatically.
Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand
	can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New
	Zealand 0800 764 766).
First Aid Facilities	Eye wash station. Normal washroom facilities.

SECTION 5 – FIRE FIGHTING MEASURES		
Fire and Explosion	Flammable liquid. In use, may form flammable/explosive vapour air mixture. If involved in a fire	
Hazards	will emit toxic fumes.	
<b>Extinguishing Media</b>	Foam, water spray or fog, dry chemical powder or carbon dioxide. Do not use water in a jet.	

### **SAFETY DATA SHEET**

Product Name: WHITE SPIRITS

Date of Issue: MAY 2017 Page 3 of Total 7

Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.
Flash Point	Flash point ca 38 °C

#### **SECTION 6 – ACCIDENTAL RELEASE MEASURES Emergency Procedures** HAZCHEM code: 3Y 3 = use FOAM to fight fires. Y = Yes - risk of violent reaction, recommend full fire kit and breathing apparatus for fire only, CONTAIN. Shut off engine and electrical equipment off. No smoking or naked lights within 50 metres. Move people from immediate area; keep upwind. Send messenger to notify fire brigade and police. Tell them location, material quantity, UN number and emergency contact. Indicate condition of vehicle and damage or injuries observed. Warn other traffic. **Occupational Release** Minor spills do not normally need any special clean-up measures. In the event of a major spill, prevent spillage from entering drains or water-courses. For large spills, or tank rupture, consider initial evacuation distance of 200 metres in all directions. Stop leak if safe to do so. Remove all ignition sources. If available, use water spray to disperse vapour. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

SECTION 7 – HANDLING AND STORAGE		
Handling	Avoid skin or eye contact with concentrate. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with soap and water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use.	
Storage	Store in a cool, dry, well-ventilated area, out of direct sunlight. Protect from freezing. Store in suitable, labelled containers. Keep containers tightly closed. Store away from incompatible materials and ignition sources. Ensure that storage conditions comply with applicable local and national regulations.	

Exposure Limits	National Occupational Exposure Limits, as published by National Occupational Health & Safety
	Commission:
	Time-weighted Average (TWA):
	None established for product.
	In the absence of data from National Occupational Health & Safety Commission (NOHSC)
	Worksafe Australia use - Mineral Spirits 175-220 HSPA: 350mg/m³ TWA (8hr)
	Short Term Exposure Limit (STEL):
	None established for product.
Ventilation	Ensure ventilation is adequate to maintain air concentrations below exposure standards. Avoid
	generating mists of the product. Use only in a well-ventilated area. Ensure airflow, where this
	product is used, is directed away from the operators.

# SAFETY DATA SHEET

Product Name: WHITE SPIRITS

Date of Issue: MAY 2017 Page 4 of Total 7

Personal Protective	Use good occupational work practice. The use of protective clothing and equipment depends
Equipment	upon the degree and nature of exposure. The following protective equipment should be available;
Eye Protection	Safety glasses with full face shield should be used for handling concentrate in quantity, cleaning up spills, decanting, etc. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.
Hand Protection	Use solvent resistant gloves, nitrile for longer term protection or PVC and neoprene for incidental splashes – to handle in quantity, clean up spills, decanting, etc. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.
Body Protection	Suitable protective workwear, e.g. rubber or plastic apron, sleeves, boots and cotton overalls buttoned at neck and wrist are recommended. Chemical resistant apron is recommended where large quantities are handled.
Respirator	If work practices do not maintain airborne level below the exposure standard, use appropriate respiratory protection equipment. When using respirators, select an appropriate combination of mask and filter. Select a filter for organic gases and vapours (boiling point > 65°C). Respirators should comply with AS1716 or an equivalent approved by a state/territory authority.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES			
Physical State	Non-viscous liquid	Colour	Clear
Odour	characteristic odour - Paraffinic	Specific Gravity	0.78 @ 25 ºC
<b>Boiling Point</b>	Typical 149 - 194 °C	Freezing Point	Data not available
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Approximately 42 (Abel) °C	Flammable Limits	0.7 - 6.5 %
Water Solubility	Not miscible	pH	not applicable
Volatile Organic		Per Cent Volatile	
Compounds (VOC)	Ca 100 % v/v		Ca 100 % v/v
Viscosity	Not available	Odour Threshold	Not available

SECTION 10 – STABILITY AND REACTIVITY		
Reactivity	Stable at normal temperatures and pressure.	
<b>Conditions to Avoid</b>	Avoid heat, sparks, open flames and other ignition sources.	
Incompatibilities	Strong oxidising agents.	
Hazardous	Thermal decomposition is highly dependent on conditions. A complex mixture of airborne solids,	
Decomposition	liquids, gases, including carbon monoxide, carbon dioxide and other organic compounds will be	
	evolved when this material undergoes combustion or thermal or oxidative degradation.	

SECTION 11 – TOXICOLOGICAL INFORMATION	
POTENTIAL HEALTH EFFECTS	
No adverse health effects e	expected if the product is handled in accordance with this Safety Data Sheet and the product label.
Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:	
Inhalation	Breathing of high vapour concentrations may cause central nervous system depression resulting
	in dizziness, light-headedness, headache, nausea and loss of coordination. Continuous inhalation
	may result in unconsciousness and death.
Skin contact	May include redness, itching and swelling, burning sensation, blisters.
Eye contact	Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging,
	blurring, tearing.

# **SAFETY DATA SHEET**

Product Name: WHITE SPIRITS

Date of Issue: MAY 2017 Page 5 of Total 7

Ingestion	May cause irritation to the mouth, throat, oesophagus and stomach with symptoms of nausea, abdominal discomfort, vomiting and diarrhoea, coughing, choking, wheezing, difficulty in breathing, chest congestion, shortness of breath, and/or fever. Aspiration into the lungs when swallowed or vomited may cause chemical pneumonitis which can be fatal.
Chronic exposure	No known effects.
Toxicology Information	Not toxic, based on ingredients. Oral LD50 (calculated) : >10,000 mg/L
	LD50 Dermal (rat) > 2000 mg/kg
	LC50 Inhalation greater than near-saturated vapour concentration (rat, 4h).
Carcinogen Status	
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.
NTP	No significant ingredient is classified as carcinogenic by NTP.
IARC	No significant ingredient is classified as carcinogenic by IARC.
Respiratory sensitisation	Not expected to be a respiratory sensitizer.
Skin Sensitisation	Not expected to be a skin sensitizer.
Germ cell mutagenicity	Not considered to be a mutagenic hazard.
Reproductive Toxicity	Not considered to be toxic to reproduction.
STOT-single exposure	Inhalation of vapours or mists may cause irritation to the respiratory system.
STOT-repeated exposure	Central nervous system: repeated exposure affects the nervous system. Effects seen at high
	doses only. Auditory system: prolonged and repeated exposures to high concentrations have
	resulted in hearing loss in rats. Solvent abuse and noise interaction in the work environment
	may cause hearing loss.
Aspiration Hazard	Aspiration into the lungs when swallowed or vomited may cause chemical pneumonitis which can be fatal.

SECTION 12 – ECOLOGICAL INFORMATION		
Eco-toxicity	Toxic to aquatic life with long-lasting effects.	
Product (as sold)	Acute Aquatic Toxicity - 2 /Chronic Aquatic Toxicity – 2	
	Expected to be harmful: 10 < LC/EC/IC50 <= 100mg/l	
Persistence and	Biodegradable. Oxidises by photo-chemical reactions in air.	
degradability		
Bio accumulative	Has the potential to bio-accumulate.	
potential		
Mobility in soil	Floats on water.	
Other adverse effects	Not available	
<b>Environmental Protection</b>	Do not discharge this material into waterways.	

# Disposal Considerations Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance

with all applicable local and national regulations.

SECTION 14 – TRANSPORT I Labels Required	NFORMATION	
ADG	Classified as Dangerous Goods class 3	CAMMAN LUCIO

# SAFETY DATA SHEET

Product Name: WHITE SPIRITS

Date of Issue: MAY 2017 Page 6 of Total 7

IMDG Marine Pollutant	No
HAZCHEM	ЗҮ
Land Transport (ADG)	
UN Number	1300
Proper Shipping Name	TURPENTINE SUBSTITUTE
ADG Code	3
HAZCHEM Code	3Y
Special Provisions	None allocated.
Packing Group	
Packaging Method	3.8.3 RT1
Segregation	Segregation Class 3 – Flammable liquid shall not be loaded in the same vehicle or packed in the
	same freight container with:
	Class 1, Explosives
	Class 2.1, Flammable Gases, if both the Class 3 and Class 2.1 dangerous goods are in bulk
	Class 2.3, Toxic Gases
	Class 4.2 Spontaneously Combustible Substances
	Class 5.1 Oxidising Agents and Class 5.2, Organic Peroxides
	Class 6 Toxic Substances (where the flammable liquid is nitromethane)
	Class 7 Radioactive Substances.
	Foodstuff and foodstuff empties.

SECTION 15 – REGULATORY INFORMATION	
GHS Classification	Classified as Hazardous according to the Globally Harmonised System of Classification and
	labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.
SUSMP	S5 (LIQUID HYDROCARBONS)
ADG Code	CLASS 3
AICS	All ingredients present on AICS.

SECTION 16 – OTHER INF	FORMATION
Issue Date	8 <sup>th</sup> May 2017
Version Number	V 2.0 GHS classification
Abbreviations and	ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail.
acronyms	AICS: Australian Inventory of Chemical Substances.
•	CAS Number: Chemical Abstracts Service Registry Number.
	GHS: Globally Harmonized System of Classification and Labelling of Chemicals
	HAZCHEM: An emergency action code of numbers and letters which gives information to emergency
	services.
	HSIS: Hazardous Substances Information System
	IARC: International Agency for Research on Cancer.
	NOHSC: National Occupational Health and Safety Commission.
	NTP: National Toxicology Program (USA).
	SDS: Safety Data Sheet
	STEL: Short Term Exposure Limit.
	<b>SUSMP</b> : Standard for the Uniform Scheduling of Medicines and Poisons.
	TWA: Time Weighted Average.
	UN Number: United Nations Number.
Literature references	Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice ( Safe Work Australia)
	GHS Hazardous Chemical Information List (Safe Work Australia)
	Guidance on the Classification of Hazardous Chemicals under the WHS Regulations.

Disclaimer	This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
